

Bobcat[®]

One Tough Animal.

DIESEL & LPG FORKLIFTS

NXP Series, Pneumatic, 2.0 to 3.5 ton capacity

🌐 Europe

INTRODUCTION

ONE TOUGH ANIMAL

BOBCAT'S HISTORY

In 1958, Melroe Manufacturing Company introduced a compact front-end loader that evolved quickly into the M400, the world's first true skid steer loader. The company soon adopted what became the world-famous 'Bobcat' brand – and its success paved the way for the global compact equipment industry we know today.

YEARS OF EXPERIENCE

In 2021, Bobcat expanded its portfolio by acquiring Doosan Industrial Vehicle. This specialist in material handling equipment constructed its first forklift in 1968 and went on to establish a global presence with 400 dealers in 93 countries.

BOBCAT TODAY

Bobcat is expanding its portfolio with the addition of forklifts and reach trucks for the material handling industry. Offering a comprehensive line-up that will meet all your intra-logistics needs. Bobcat forklifts and reach trucks are produced in our factory in Korea, while our premium quality warehouse equipment is made in Germany.

OUR MISSION

We empower operators to accomplish more, while working in the toughest conditions and tightest situations. When our customers have the will, we provide the way.

TOUGH, AGILE & SAFE

▶ UNMATCHED VALUE

The NXP Series combines entry-level accessibility with incredible power, durability, and operator comfort, promising outstanding value for your investment.

▶ **TOP PERFORMANCE, ALL DAY LONG**
Our powerful, fuel-efficient engines promise high-performance, all day long.
P. 6-7

▶ **CONFIDENCE IN COMFORT**
Easily navigate longer shifts with confidence thanks to an intuitive instrument panel, adjustable seat, small steering wheel, and spacious cab.

▶ **OUTSTANDING SAFETY**
With safety features like a mast lowering interlock, vibrant LED lights, and a reliable parking brake, operators can enjoy an even safer ride.
P. 10-11

▶ **BUILT TO LAST**
Built for durability, the NXP Series delivers reliability through features like optimized airflow, engine protection, robust mast design, reduced vibrations, and anti-dust measures. Enjoy the power of Bobcat for years to come.
P. 12-13

OUTSTANDING PRODUCTIVITY

▶ REACH HIGHER, ACHIEVE MORE

Our improved gear pump and mast regulator valve takes your truck to new heights, significantly increasing efficiency and productivity, especially in high-speed operations.

▶ LIFT BIGGER

Get more stability with our new auxiliary weight. This feature lowers the truck's center of gravity, allowing it to lift bigger and stronger in heavy-duty applications.

▶ NAVIGATE IMPOSSIBLE SPACES

Enjoy working in places where others cannot! Thanks to a small turning radius, you can maneuver in and out of the tightest spots with ease.

▶ ELEVATED PERFORMANCE

The combination of a robust engine, advanced transaxle, and innovative frame structure has optimized gradeability, allowing operators of the NXP Series to confidently scale steep slopes of up to 25% grade.

COMFORT & CONTROLS

▶ OPTIMIZED COMFORT & CONVENIENCE

Optimized for operator comfort and convenience, our cab design ensures efficient use of space, and a comfortable driving experience. Enjoy the benefits of a compact steering wheel, accompanied by an adjustable steering column and suspension seat.

▶ MORE LEG ROOM

With more knee clearance and a relocated tilt cylinder, our trucks offer more leg space for enhanced comfort.

▶ EFFORTLESS CONTROL

A compact steering wheel with a knob makes it easy to maneuver, control, and operate.

▶ SIMPLIFIED OPERATION

The headlamp switches are seamlessly integrated for effortless operation.

▶ EASY ENTRY

Our trucks are designed with operator comfort in mind with low step height, an easy entry bar, and a step plate enhanced with anti-slip tread.

▶ ENHANCED COMFORT

For even more comfort, we've relocated the steering column to the left for a more natural posture, while the instrument panel has been shifted to the right for improved visibility.

▶ SEE MORE, WORK BETTER

By lowering the cowl height (-40 mm) and tweaking the counterweight design, our NXP Series offers improved front and rear end visibility for safer driving conditions.

SAFETY IN EVERY MOVE

▶ SAFETY AT EVERY TURN

Operate the truck with complete confidence thanks to the remarkable visibility through an expanded mast window, strategically repositioned hydraulic hoses, and a reduced cowl height. Safeguard operations with features like a mast lowering interlock, vibrant LED lights, and a reliable parking brake, while operators enjoy an even safer ride with optional blue safety lights, zone lights, and a rear-view camera.

▶ OPERATOR SENSING SYSTEM (OSS)

The truck's travel and mast lifting functions stop when the operator leaves the seat so the forklift won't perform any unintended movements.

▶ A MORE SECURE WORKPLACE

When the operator leaves the truck unattended, the hydraulic locking system prevents unintentional lowering and tilting of the mast. This keeps the truck, load, and job site safe.

▶ PEDESTRIAN ALERTS

The blue safety light projects onto the floor around the truck, alerting pedestrians to the approaching vehicle.

▶ SAFETY ZONES

The vehicle projects red light-zone onto the ground, marking a safe area for pedestrians in close proximity to the vehicle.

▶ BACKUP ALARM

While traveling in reverse, the backup alarm sounds to warn people in the vicinity of the approaching truck, making the workplace safer for everyone.

▶ PARKING BRAKE ALERT

Prioritize operator safety and safeguard against accidental movement with our parking brake warning system.

▶ PANORAMIC VIEW

Providing greater visibility of the rear working area, the large panoramic mirror improves safety while adding to overall productivity.

▶ ILLUMINATE YOUR WORKPLACE

The LED lights illuminate even the darkest corners of your workplace, keeping you safe and aware of your surroundings.

BUILT TO LAST

▶ NO JOB TOO TOUGH

Made for robust performance in heavy-duty and dusty environments, this truck offers anti-dust design, pre-cleaner, and double filter. It also boasts features like a protective belly plate, vented side panels, engine guard, and heavy-duty cooling for optimal functionality.

A wide hood opening with locking cylinders and a tool-less removable side panel for easy access

The reinforced ribs (J-channel) of the mast beam improve mast stiffness and lateral stability

Withstand the harshest conditions with the optional vented side panels, belly plate, pre-cleaner, and radiator screen.

Outstanding stability and reduced vibrations thanks to the newly redesigned auxiliary weight **P. 11**

Centralized electronic components for easier maintenance and reduced downtime

Adjusted muffler position for better airflow and increased cooling capacity

THERE'S NO TIME FOR DOWNTIME. STAND UP TO EVERY TASK THAT COMES YOUR WAY, DAY AFTER DAY.

2 YEAR WARRANTY

▶ WARRANTY

Bobcat develops every machine to the highest standards of quality and durability. That's why our standard warranty provides 24 months or 2 000 operating hours (whichever occurs first) of coverage.

▶ PROTECTION PLUS EXTENDED WARRANTY

Enjoy total peace of mind with Protection Plus extended warranty. Providing the same level of protection as the standard warranty, Protection Plus also reflects different customer needs and expectations by offering a choice of durations and annual operating hours.

▶ EXTENSIVE DEALER NETWORK

You can rely on our network of dealers and service partners who are always ready to help you.

▶ BOBCAT GENUINE PARTS

Quality components delivered to our dealers guarantee that all of our equipment is built to last, withstand the toughest conditions and provide reliable performance.
